## ESTONIAN INDUSTRY TOPS THIRD-QUARTER PLAN

The Statistics Administration Estonian SSR reports that Estonian industry fulfilled the third-quarter and September gross-production plan 107 percent, producing 25 percent more than in the third quarter 1948. The third-quarter plan for gross production was fulfilled by individual ministries, combines, and enterprises as follows:

	Percent
"Estonslanets" Combine	- 96
"Estonenergo"	72
"Ulila" and "Ellamaa" Peat Enterprises	132
"Yol'ta" Plant	109
Tallin Machine-Building Plant	105
Kokhtla-Yarva Shale-Processing Combine	107
Krengol'm Textile Mill	112
Locomotive and railroed car Repair Plant	74
Tallin Pharmaceutical Plant	117
Ministry of Timber and Paper Industry	106
Ministry of Fish Industry	115
Ministry of Food Industry	114
Ministry of Local Industry	103
Ministry of Shale and Chemical Industry	104
Ministry of Housing and Civilian Construction and Construction	
Materials Industry	122
Ministry of Agriculture	<b>7</b> 0
Ministry of State Farms	107
Ministry of Health	123
Ministry of Trade	114
Polygraphic Industry Association	123
Estonian Republic Union of Consumers' Societive	113
Main Administration of Automobile Transport	51
Ministry of Social Security	113
Ministry of Communal Economy	112
Central Union of Agricultural Cooperatives	1.7
Administration of Utilization of Small Rivers for Transport	137
All industrial cooperatives	. 102

(Continuea)  3d Quarter 49	3d Quarter	49
Plan in \$	3d Quarter	48
Sausage 125	120	
Fish catch	142	
Butter 105	112	
Cheese 45	88	
Bakery products	111	
Confectionery 113	147	1.
Alcohol 150	126	
Vodka 156	I50	
Cigarettes 148 Soap 82	116 154	

The following ministries, while exceeding the gross-production plan, failed to meet the plan for production of the products indicated: Ministry of Shale and Chemical Industry -- shale mining and production of shale oil; Ministry of Timber and Faper Industry -- logging of commercial timber and firewood, matches, and ties; Ministry of Local Industry -- linen fabric, woolen yern, rope, planters, plows, radio receiving sets, table scales, aluminum pots and pans, and hard and soft leather; Ministry of Food Industry -- groats macaroni, mast, and cheese; Ministry of Housing and Civilian Construction and Construction Materials Industry -- tile, plate glass, tar paper, and insulating plate; Ministry of Communal Economy -- gas for public use and electric power; Central Union of Agricultural Cooperatives -- cheese, flour, and greats; Main Administration of Industrial Cooperatives -- brick, tile, metal beds, funniture, felt shoes, outer knitwear, soft leather, weolen yern, carts, and harnesses.

During 1949, the introduction of new, highly productive technological and production processes in the shale-mining and processing industry, in the "Vol'ta" Plant, and in enterprises of the food and meat and dairy industry has resulted in increased capacity and labor productivity and decreased costs. The mines of "Estonslanets" Combine have completely mechanized hauling and loading of shale in railroad cars. The locomotive service of the Estonian Railroad System is exceeding the plan for mechanization of heavy and labor-consuming work in loading coal in locomotives and other processes. Loading of coal in locomotives is now 92-percent mechanized. The volume of mechanized operations has seen increased in the "Estonslanteestroy" (Construction of Estonian Shale Enterprises), "Gazzlantsetroy" (Construction of Shale Cas Enterprises), and the "Legprometroy" (Construction of Light Industry Enterprises) Trust.

Introduction of mechanized methods, particularly electric saws, is proceeding extremely unsatisfactorily in the Ministry of the Timber and Paper Industry, Estonian SER, and mechanization of cutting and hauling shale is slow in the "Estonslangts" Combine.

The Estonian Railroad System fulfilled the third-quarter loading plan 102 percent for wide-gauge railroads and 110 percent for narrow-gauge railroads. The volume of loading in the third quarter increased 10 percent on wide-gauge and 7 percent on narrow-gauge railroads as compared with the third quarter 1948. The third-quarter plan for loading different types of freight was fulfilled as follows:

Percent

	Wide-Gauge	Marrow-Gauge
Petroleum products	100	156
Shale	90	143
Grain	175	125
Timber	105	79
Firewood	160	91
Cement	87	••
Other construction materials	120	117
Timber Firewood Cement	105 160 87	79 91

The third-quarter plan for average speed excluding stops was exceeded, but capacities for speeding car turnaround and increasing train speed were not sufficiently utilized.

The third-quarter freight hauling plan was fulfilled 77 percent in tons and 81 percent in ton-kilometers by the Main Administration of Automobile Transport, Estonian SSR, and the plan for passenger transport was fulfilled 99 percent.

The third-quarter capital construction plan was 95 percent completed, including 101 percent for housing. The capital construction plan is being met successfully by projects of the ministries of the coal, petroleum, light, and shale and chemical industries, the Ministry of Eigher Education USER, the Arts Administration, and the Ministry of Education.

The ministries of agriculture, fish industry, food industry, and health are not making adequate use of funds set aside for capital construction. During the third quarter, construction projects, providing additional capacity, were completed for the shale, light and food industries and for "Estonenergo." More housing was completed in the third quarter 1949 than in the same period of 1948.

Enterprises of the Ministry of the Coal Industry USER and the Ministry of Housing and Civilian Construction and the Construction Materials Industry Estonian SER, have fulfilled the year plan for utilization of funds and for completion of housing construction. Enterprises of the Ministry of the Coal Industry USER put into service 1.4 times as much housing in 9 months of 1949 as in the same period of 1948.

Kolkhozes, sovkhozes, and individual peasant holdings of the republic completed the grain harvest earlier than last year and have fulfilled the state grain-procurement plan. In the second and third quarters 1949, MTS completed 2.3 times as much work as in the same period of 1948 and fulfilled the year plan for tractor work.

The third-querter plan for trade turnover was fulfilled 97 percent, including 95 percent for retail trade turnover and 106 percent for turnover in public eating enterprises. Individual trading organizations fulfilled the turnover plan as follows:

Percent

	Retail Trade	Public Mating Enterprises
Ministry of Trade, Estonian SSR	88	107
Main Administration of Individual Special Food Stores (Glavosobgastrongu)	86	==
Mein Administration of Individual Department Stores (Glavosobunivermeg)	85	
Main Administration of Individual Restaurants (Glavosobrestoran)		109
Central Union of Estonian Republic Union of Consumers' Societies	103	124
Central Union.of Agricultural Cooperatives Industrial cooperatives CRS	93 82 95	124 43 97

The volume of agricultural products in the city markets has increased and prices, particularly on potatoes, vegetables, milk and butter, have decreased.
